

Image Wrapper Information Sheet

Easily add custom covers to books

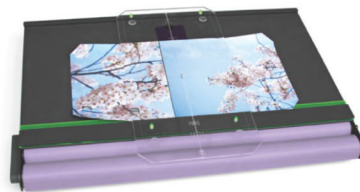

Now it's possible to add photographs or custom graphics to book covers simply and quickly. The unique and affordable **Powis Cover Wrapper** allows even unskilled users to make great looking, high-value personalized covers — and printed on a wide variety of materials. Wrap books with photographic prints, laminated paper images, even custom printed fabrics, for just the right effect.

The Cover Wrapper is designed for ease of use — no special craft skills are required.

1. Cut the printed cover material to size per our transparent template.

2. Position the template and cover in the Cover Wrapper over the Powis pre-made hardcover blanks — spine titles can be centered precisely.

3. Finally, seal down your cover material. The customized cover is done — ready to add your customer's printed pages

The custom cover is permanently mounted to the front and rear hardcovers across the spine — all in one piece. Printed edges of the cover wrap around to bleed inside on all sides. A professional quality job done in just a few minutes with a single machine. Make only one cover or as many as you wish in a wide variety of sizes. The perfect solution for personalizing photo books, albums, and portfolios with your customer's favorite photo or graphics. Great for family keepsakes, gifts, marketing or self-publishers.
